FULL STACK SOFTWARE DEVELOPER.

FRONT END DEV | BACK-END DEV | FIGMA UI UX DESIGNER.

My objective is to leverage my expertise in full stack development to create innovative and user-friendly web applications that meet the needs of clients. I am passionate about developing solutions that are both aesthetically pleasing and highly functional, and I strive to stay up-to-date on the latest technologies and trends in Software Development. With my strong problem-solving skills, attention to detail, and commitment to delivering quality results, I am confident that I can be an asset to any organization.

DICE COMPANY.

CONTRACT.

12th, August 2021 – 23rd, January 2023.

FULL STACK DEVELOPER

I have years of experience as Dice full stack developer Contractor, working on a variety of projects for clients in various industries.

- Developed a full stack web application for a client using React, Node.js, and MongoDB. This included creating the front-end UI/UX design, setting up the back-end server, and integrating the database.
- Developed an end-to-end web application for a client using HTML5/CSS3/JavaScript (ES6), ReactJS (Redux), NodeJS (Express) & PostgreSQL (Sequelize). This included creating user interface design as well as setting up authentication services with PassportJS library & integrating it with other third-party APIs such as Google Maps API and PayPal, Mpesa and Stripe API for payments processing & also configuring PostgreSQL database to store data securely & efficiently in production environment.
- Developed an end-to-end mobile application for a client using React Native & Firebase (Fire store). This included creating user interface design for both iOS & Android platforms along with setting up authentication services with Firebase Authentication API & integrating it with other third-party APIs.

KUHUSTLE.COM
